

# HOME SAFE

for the **HOLIDAYS**

WHEELS, GRAVITY,  
AND COMPLACENCY

**Berkley Industrial Comp is kicking off our inaugural  
"Home Safe for the Holidays" campaign.**

We want to help our customers ensure that their employees make it home safely during the holidays by focusing on three key areas:

**Wheels, Gravity and Complacency.**

## WHEELS

*\*Motor vehicle crashes,*  
"are the leading cause of work-related deaths in the U.S."

Transportation incidents accounted for \* **40%** of all work-related fatalities.

## GRAVITY

Falls account for more than \* **240,000** injuries resulting in time away from work, and **791** workers were fatally injured from falls

According to OSHA, \* **33.5%** of fatalities in the construction industry were due to falls.

## COMPLACENCY

"Complacency has resulted in \* **442 deaths each day**, every one of them preventable."

On average less than \* **1%** of OSHA violations are classified as "willful" implying that more than 99% of violations were not committed willfully.

\* Click for more information

Every year thousands of workers needlessly suffer serious, even fatal injuries; however, this doesn't have to be the case. We can help you implement proactive measures to better protect your employees from injuries associated with these three areas.

Let's work together this holiday season to help your employees work safely and return home for the holidays!
